## Fan Motor Replacement Part# 060049

Fan Motor Replacement  
Old motor - 4 wire (white / yellow & blue / orange)  
New motor - 2 wire (black & black)

Zip tie - to replace old zip tie. Secures fan wire to lower distiller body (keeps it way from the fan blades).

Female blade connection. One replaces the 2 butted connections on the fan switch (blue/orange), the other replaces the butted up connection on the relay (white/yellow). Motor rotates clockwise regardless polarity.

Please contact us with questions. We're happy to assist (801) 281-4911.
